The River and Harbor Bill-The Wise-Massey Case-A Cheerful New England Demo-

[From Our Regular Correspondent.]

WASHINGTON, June 10 .- The House today voted to pass by the bill forfetting the land-grant of the Vicksburg, New Orleans and Baton Rouge railroad and took up the river and harbor bill. It was evident that the committee was strong enough to prevent any radical amendments. Colonel Tom Ochiltree, on behalf of Galveston, asked that the \$250,000 for its harbor be stricken out, because so small a sum could do no good. It will take millions. Mr. Belford, in taking ground for Galveston, said his State (Colorado) proposed to run a ratiroad from Denver, through Mexico, Central and South America, to Rio. Mr. White, of Kentucky, worked into the debate on this item. It is seldom Messrs. Ochiltree, Belford, and White are heard on the same day. The House accommodated Galveston, and struck out the appropriation. The bill was considered rapidly. All the Virginia rivers and barbors went through as reported. Hon. George D. Wise offered an amendment increasing the appropriation for the James from \$75,000 to \$100,000, but it was voted down, as were other amendments. He spoke earnestly in support of it, and read resolutions adopted by the Kentucky Legislature in favor of a liberal appropriation to the James on the ground that the distance between that and the Scaboard is lessened one hundred and twenty-seven miles by the route of which the James forms an important link. Mr. Wise took the position that a liberal appropriation for this improvement is in the interest of cheap transportation for a very large section of country which is exceedingly fertile and rich.

Mr. Garland said all applications for relief had been favorably and unanimously appropriation for Little Kanawha was stricken off because the river is in the hands of a private corporation. Mr. Gough said in advocating an appropriation for Elk river that one might as well have run against the Stonewall brigade as against the committee. The bill contains the amendment offered to the committee by the Hon. George D. Wise, committing Congress to twenty-five feet of water at high-tide from Richmond to the mouth of the James. This has been agreed to by the Committee of the Whole and will of course be adopted in the House, Large appropriations may therefore be looked for hereafter. THE MASSEY-WISE CASE.

The House Elections Committee agreed to-day to postpone the consideration of the proposition for a rehearing in the Massey-Wise case until Thursday. General Hun-ton, counsel for Mr. Massey, was away, and it was not deemed desirable to proceed during his absence. Hon, John S. Wise was on the Senate side to-day, and had an earnest conversation with Senator Both gesticulated, and it is not often that the latter, even when investigating Danville, gets excited. WHAT REPRESENTATIVE COLLINS SAYS,

General Patrick Collins, of Massachusetts, has just returned from Boston. He says the defection in the Republican ranks has been rather underrated than over-rated. He thinks a first-class Democratic ticket can get two to one in Boston, and carry Massachusetts. He is in fine spirits, and will go to Chicago. Some weeks ago General Collins, who is a staunch Democrat and an able representative, was low spirits about the situation, and did not, I heard, intend to go to Chicago. But things have changed, and he sees victor. ahead if wise counsels prevail. A Republican from Boston says the Traveller, of that city, has the only Blaine and Logan flag yet thrown to the breeze.

A RETURNED VIRGINIAN GIVES SOME INTEREST-ING CHICAGO INCIDENTS.

I to-day asked a Virginian of prominence, who went to Chicago in the interest of Blaine, to give me some interesting items in regard to the performances of Virginians during the Conventior. "Didn't you hear," said he, "about Colonel Sims nd Postmaster Page Morris, of Lynchberg." I replied in the negative. "Well," he remarked, "when Sims, Scott, and others, boited from Mahone and Brady and voted against Arthur resolutions were adopted by the Arthurites denouncing their conduct. This led afterwards to an altercation between the delegates named, and the result was that Colonel Sims knocked Mr. Morris down. The resolutions will never be published. I heard at Chicago," he continued, "that Mr. Arthur had promised, if elected President, to put General Mahone in his Cabinet, provided the General should beaten for Senator. After fighting Blaine so savagely, it was funny to hear it stated at the hotels, 'Mahone says he will carry Virginia by thirty thousand for the ticket.' Now he will have to change that electoral ticket," remarked my informant, to get Republicans to vote it, and after his overwhelming defeat at Chicago he will not, in my judgment, beable to rally solidly own forces to its support. forgets he is no more the man be was when issuing orders from the Whig building a few years ago than General Grant is the was when he defeated Greeley." Here a Boston Republican came up and remarked to me, "Your man Senator Mahone said to me at Chicago, that if he didu't represent the Republicans of Virginia re is no Republican party there.' A leading New York correspondent who talked with General Mahone after the adjournment says he had grave apprehensions alluded to. He remarked, he said, that he had been looking for the Arthur leader, but had failed to find him. The bad management of the Arthur men evidently disgusted him.

OVER. The Senate to-day resumed the consideration of the Mexican pension bill, and Senator Harrison, "the illustrious grandson," who didn't even work up a bantam boom at Chicago, became excited at the idea "of giving soldiers pensions who didn't serve sixty days in Mexico." A correspondent remarked that he reminded cards and then goes home and whips his children. The amendment of Mr. Harrison was laid on the table on motion him of a man who loses his money at of Governor Brown. The only Democrat who voted with the Republicans was Senator Saulsbury, of Delaware. The friends bill known as the Eads bill would be pressof the bill contended that any amendment would endanger it in the House. Governor Brown, in reply to Senator Van Wyck, said that it was better to take the House bill without amendment than to lose it entangled. The committee did not assent to this action, but thought it best for Galveston that the appropriation should remain, even if it was afterwards determined to adopt bill without amendment than to lose it entirely. When 2 o'clock came Mr. Allison insisted on taking up the consular and diplomate bill, it which the South will never have any practical interest until the national Democratic party comes into national Democratic party comes into

The bill was read by sections, and the amendments proposed by the Senate committee were agreed to, with only the interposition of occasional remarks of inquiry and explanation, except as to the provision appropria ing \$250.000 to meet the expenses attendant upon the execution of the neutrality act. When this provision was reached in its order it was held in abeyance until the remaining provisions were disposed of. On these being agreed to, Mr. Allison moved that the Senate now proceed to the consideration of the clause re-ferred to, and that for this purpose the doors of the Senate be closed and the gal-

It is as follows: On a motion made and seconded to close the doors of the Senate for the discussion of any business which may, in the opinion of the Senate, require secres, the presiding officer shall direct the sy, the presiding officer shall direct the alleries to be cleared, and during the discussion of such motion the doors shall re-

Terrible Fate of Thirteen Men in Montana [By telegraph to the Dispatch.] HELENA, MONT., June 10 .- On Sunday afternoon while the ferry-boat at Thomp-son's Falls was crossing the river the cable broke, and the boat went over the falls 300 yards below. The boat had eleven men bound for the Cœur d'Alene mines, and thirteen pack-horses, each carrying 300 pounds of supplies for Eagle City. The current was very swift and powerful. As soon as the cable broke all of the pasengers except two jumped overboard and struggled vainly to reach shore, but were swept over the falls. The boat righted after going over the brink, and lodged against Belknap bridge, a short distance below, where the two passengers who still clung to it were rescued, and two men on the shore took a skiff and tried to rescue bose who had jumped into the water, but were also swept over the falls. JUNE 9, 1884. As you have been advised, the Board of Directors of the proposed Southwestern Lunatic Asylum met at Central Depôt on Wednesday last, five of the eight ap-pointees being present. After an interchange of views, they started on a tour of inspection of the various places that are competing for the location. Abingdon, Marion, and Wytheville were visited, and Graham, in Tazewell county, sixteen miles east of Pocahontas, on the New-River rail-road, will be inspected to-day; after which the Board will adjourn until certain preliminaries can be arranged prior to a definite selection. There appears to be some difficulty in securing a copious supply of water at such places as embrace the necessary centrality of location. In order to ascertain the exact water elevations, the Board have selected several sites in the towns already visited, which the authorities of said towns propose to have examined by competent engineers, with a view of determining definitely the amount of water that can be subject to inspection and review by an en-gineer to be selected by the Board of Directors. Thus it will be seen that some time is likely to occur before the much-needed in-stitution can be started, if, indeed, it can be started prior to the next meeting of the Legislature.

The kind-deated the shortly afterwards, in an unguarded moment, the negro seized Legislature, Upon examination by the Board it has

been found that the bill for the establish-ment of the asylum is very imperfect, and will need considerable amendation. In the first place, the act in question authorizes the Board of Directors to select a site, se-cure the necessary deeds, and report to the the State without an act of the Legisla-ture enabling them to do so. This difficulty the Board propose to overcome by securing such personal or offi-cial guarantee as will hold good until the Legislature can act in the premises. The second obstruction-viz., the small appropriation-is of more serious magnitude. It wen't take very long for a very small number of architects to lap up the sum of fifteen hundred dollars in plans and travelling expenses. The State been fortunate in any event in securing an excellent Board of Directors, who are making their investigations with the de-liberation and care becoming the great in-

terests involved. The Executive Committee of the Roanoke Live Stock Association at a meeting held on Friday fixed the time for holding their next annual exhibition on the 7th, 8th, 9th, and 10th of October.
